Title:

Comments: I am opposed to this trail!

1. It parallels an existing trail
2. In the middle of the largest wildlife corridor in our region
3. Already we have too much traffic on a one lane dirt road! We do not need anymore!
4. No parking anywhere for proposed trail users.
5. Disrupts a very healthy forest setting us up for wildfires
6. The Trout Lake region is already at max capacity year round. We do not want or need more people that disrespect the area.
7. There is already an existing trail. And this proposed trail ends on that trail. Redundant!

There are more reasons but this is a start. Do NOT approve this ridiculous proposal.

Thank you,
Tracy Kurek
