Title:

Comments: We have lived this long with our glorious old wood forests. They deserve to be protected and preserved for the American public. Will we not conserve anything in this nation anymore? The profits of this logging activity will be spent in a few months. Hardly enough time to germinate a seed. Meanwhile, the profits that these forests give us now are endless to the visitors and the wildlife that live there and need these forests for survival. Don't do something that cannot be undone.
