Comments: Please finalize a strong northwest forest plan! Especially with the ridiculous onslaught and attack of the current administration against the environment, it's more important than ever to safeguard our precious environmental resources against exploitation and destruction.

We need a strong Plan to protect our remaining mature and old-growth forests and the many imperiled species that depend on that forest habitat for survival. We also need it to protect our collective interest in clean air, drinkable water, and the climate stabilizing benefits forests provide by storing and sequestering vast amounts of carbon.

Thank you,  
Germana
