First name: Elizabeth

Last name: Bazar

Organization:

Title:

Comments: Life began in a "garden." May we never ignore its holiness.

May we never abuse it.

May we honor its power, its healing, nurturing, communicating,
sustaining, recreating and enjoyment blessings.

May God one day return each of us to the "garden"

that we have cultivated and cared for,

and in the way we have tendered and honored it.

Catherinemarie
