Title:

Comments: Do not allow of privatization of national parks and forests. Lands should belong To People. Public lands should not be exploited by corporations like the rest of America. We should protect our last standing wild forests and lands and animals. We have pushed wild life to the brink of extinction already far enough, further destruction of lands and forests will finish the job.

As a person who works in a recreation/restoration sector I have seen the effects of this already, and cannot imagine what will happen with allowing corporations on our public land. Enough is enough. No more destruction. No more scrounging on wildlife that is hanging by a thread already.
