Comments: To whom it may concern, I am concerned. Please protect our old growth forest, and make wise decisions on commercial logging based on real needs. Also, I would advocate for not starting a trade war with our neighbor and closest ally who has all the wood we need and wants to sell it to us. This is an industry essential to our economy but handled best with diplomacy and inter hemisphere cooperation. Let's preserve the forests that our air, water, flora and fauna rely on for the next generation. When it's gone it's gone, and when we clear cut we create the potential for unnaturally large forest fires.

Please please please do what you can for responsible policy. Thank you,

Miller Resor, Victor, Idaho
