Comments: Forest Service,

We live on a Forest Service road and are surrounded by public land (Flathead Forest and State Land) We are strongly in favor of any and all forest fuel clean up you want to do. Two years ago we had our homeowners insurance cancelled by the company that had insured us for 18 years because they did not want to subject themselves to the wildfire risk that exists in this part of Flathead County. After much searching I did find a new carrier, but do not want to go through that process again. The recent burning of Pacific Palisades, California, vividly reminded us of how important it is to remove excess fuel from the forest floor and do whatever else is possible to mitigate the wildfire risks we face. I am all in on this project and will support your efforts in any way possible. Thank you!
