Comments: Please preserve the northwest forest. As a person who moved here from another state, I am in awe of the nature here, and the proximity of beautiful forest to a large metropolitan area. Losing this forest to commercial interests would be a shame and contrary to what I thought and loved about the way nature is taken care of here. The northwest forest represents the character of the Portland Metropolitan area. Please don't take that away and make it slowly become another boring profit-driven place. Thank you.
