Title:

Comments: A few years ago I moved to the Pacific Northwest solely for the purpose of recreating and exploring the wonderful forests and outdoor recreation unique to the PNW. I fell so in love with the area that last year I decided to thru hike the Pacific Crest Trail. My entire life, my hobbies, where I spend my time and money is dedicated to our public lands and forests. It's what makes America great and as an advocate of the outdoors, the public will not stand by idly as it is stolen from us to turn profits for corporations.
