Comments: I would like to see plan revisions that that put more effort put toward protecting existing old growth stands, not re-defining them, and toward practices that recruit more old growth into the future

I applaud the intention to maintaining Late Successional Reserve (LSR) areas. However, I oppose future commercial timber harvest as a management practice in LSRs. Option B's proposal to harvest stands in LSRs up to 119 years of age is a bad idea.

I endorse the Coast Range Association's (CRA) comments on the DEIS. Please fully consider the CRA's comments.

Thank you for your consideration.
