First name: Bridget

Last name: Smith

Organization:

Title:

Comments: Comments:

- do not raise the logging limit, protect the old growth. This is best for our forests.
- save the northern spotted owl and marbled murrelet and other wildlife
- intact forests protect wildlife, fight climate change and reduce wildfire risk.
- support tribal stewardship, but do not tie this to logging increases.

Above all we should value clean water, fish habitat, and recreation above logging profits. Our forests should be protected and cared for, not sold for profit.
