Comments: Hi Jackie,

We were colleagues back in the first Trump term. You may not remember me; that's ok.

I wish I had the strength to comment more, but I had physiological reactions every time I contemplated writing (I guess PTSD). You see, while in Region 6 in 1984 and from 1988-1994, I was in the thick of it, and it was the most intense, fulfilling, traumatic, and meaningful time of my career. No regrets, but i'm scarred. These forests and the owls and other wildlife I grew to know, mean so much to me.

I know you know the right thing to do, and I trust you will defend remaining old growth forest from irreversible harm. Given over 95 percent of the virgin PNW forests are already gone, forever, there is no moral argument for eliminating any more. Best of luck navigating the second Trump term.
