

Data Submitted (UTC 11): 3/17/2025 8:59:24 PM

First name: Lindsay

Last name: Hansen

Organization: Behind the Mask Therapy

Title:

Comments: Natural spaces not only provide economical impact for community (through tourism) but mental health benefits as 20 mins. of being outside reduce cortisol significantly. This increases health, work efficiency and safe family environments. Protect our forests for better community health and longevity.
