Comments: Please do not remove protections in the Late Successional Reserves and definitely do not mess with what's left of our Old Growth forests. I do support some logging in much of the national forests, especially in stands that need to be thinned. There's not enough capacity in our local mills for much more logging anyway. I have some misgivings with the current NEPA process for trail building so I think some adjustments could be made to that process to allow worthy recreation projects to proceed. Right now there are often roadblocks that don't really make sense. Many times forest districts are under staffed and they just say no to new projects before they ever get a chance to get going. I was happy to see the Recreation Not Red Tape included in the EXPLORE act. I just hope it gets implemented.
