Last name: Eckerdt

Organization:

Title:

Comments: - Recognize the difference between the diverse forest types here in Oregon and the PNW

- Include the Oregon Department of Forestry and other state agencies in planning the NWFP amendment

- Address and acknowledge the impact of climate change has had and will have over the next decades

- Protect from logging our remaining venerable trees that have aged beyond 80 years

- Do not let the greed of the timber industry plunder out public lands. Science-based decisions rather than investment return for wall street.
