Comments: Northwest Forest Plan Amendment #64745

I oppose the U.S. Forest Service proposed changes to the Northwest Forest Plan that would vastly increase logging in mature and old-growth forests - putting wildlife, clean water and climate at risk and support the following:

- \* Protect mature and old-growth forests - don't raise logging limits to 120-150 years.
- \* Save wildlife like the Northern Spotted Owl and Marbled Murrelet.
- \* Intact forests fight climate change and reduce wildfire risk - cutting them down does the opposite.
- \* Support Tribal stewardship - but don't tie it to logging increases.
- \* Value recreation, clean water and fish habitat over timber profits.
