First name: Rafael

Last name: Pease

Organization:

Title:

Comments: As a professional action sports athlete who spends most of my time on public lands, I oppose any amendment (B, C, and D) to the NWFP. Any changes to the NWFP should increase protection. These do not. I spend time in the National Forests of WA or OR, and snowboard within Mt. Baker-Snoqualmie National Forest. In response to climate change mature and old-growth forests must be protected. An act of Congress, or something like the Roadless Rule, should protect the forest and wildlife.
