First name: Rex

Last name: Morton

Organization: Woodland Arboarealists

Title:

Comments: Our ancient forests are in dire straights. They must be preserved! Having worked as high mountain toilet ranger for the Mt. St. Helens Monument during the last forests plan, our organization commented as such. The current administration is hellbent on the sacking of our national forests and destroying our national parks. We realize our comments are futile, but it's our last chance to stand up to the destruction and madness!
