Comments: Secure Pacific Northwest forests HALT sale of our essential forests that are the pride of our region!

We commend the USFS for its collaborative approach with Tribal nations throughout the DEIS process. The agency has demonstrated a genuine commitment to upholding Tribal sovereignty, honoring treaty obligations, fulfilling trust responsibilities, and fostering meaningful co-stewardship partnerships. The final Plan should advance the Tribal inclusion components forward independently and not tied to any of the alternatives (in particular the Proposed Alternative B and Alternative D).
