Title:

Comments: I support alternative 3. Please protect the lynx. Protect our land where they roam freely. As a trout lake resident and 5th generation telluride family. Please protect this space. Our future generations depend on us not making trails where valuable and endangered species live. There is already a trail there. Let's not trash this beautiful space where many of our valuable wildlife live. Save it for future generations to appreciate. Not every single space needs a new trail. I see lynx tracks on a regular basis. Let them stay where they belong.
