Title:

Comments: I would like to object to this project moving forward, as a homeowner in Driggs, Idaho. And one who spends a great deal of time in the area in the backcountry. I would not want to see the Canyon at all affected, the town affected, by the major increase in traffic, local wildlife habitat affected, etc...

I would say that I would think that the majority of Teton Valley, Idaho does not want to see this expansion happen, to simply increase the value of Grand Targhee(GT) ski resort for sale to a major corporate entity. The expansion passing, creating potential for more expansion in the future. Passes, I have heard, will go up by \$200 this season per tier. If GT keeps making expensive improvements up there, locals will be priced out of buying passes as well. So many reasons why this is not a good choice.
