Comments: I am opposed to any adjacent path/trail/bikeway along the Trout Lake road system as part of the Telluride Mountain Club Trail Proposal 2023 #65616. The current road already exists as a multi-model access around the lake and it is not necessary to destroy and disturb any additional land for another trail system. Additionally, I am opposed to the Trout Lake road even being listed/adopted into the Club proposal. This road is access to Hidden Lakes (private) and the Hope Lake trailhead along with owners and residents of the cabins. There are plenty of County roads that the Telluride Club can ride on in and around the Telluride Valley without driving to Trout Lake to ride the road. At a minimum, if you want to approve the Trout Lake area in the trail proposal, a parking lot shall be established off the highway at the meadows and sheep pens on top of the pass. No parking or bike tours should be allowed from the Trout Lake area as the paddleboard tours are already a significant problem and continued issue at the dam and more can't be added to it.
