Last name: Vercheak

Organization:

Title:

Comments: I have hiked many times in this area of the White Mountain National Forest, with my family, with my Girl Scouts, and with the hiking group Babes in the Woods. I strongly urge that the Webster Cliffs trail continue to be in established trail corridors. The Forest Service has not yet convincingly demonstrated the basis for any trail relocation. I do commend the proposal for trail work to use traditional skills and tools.

Thank you. Susan Vercheak
