Comments: To Whom It May Concern:

My biggest concern are the massive layoffs and budget cuts from this administration and how it could affect your ability to thin this forest area properly. I do not doubt you all know how to do your jobs and mitigate fire risk, but I do not trust there's enough employment power anymore to do it right. I for one send a request to pause this large scale thinning until we have enough information about what's next for forest protection under the DOGE ridiculousness.
