Comments: Hello FS.

Thank you for your work on this.

I greatly support this effort. This weekend, I saw six people, all friends, pull up in six separate vehicles, reducing parking space for others significantly. Much like the Red Meadows effort in Mammoth Lakes, I believe that the road should be open to emergency vehicles, SAR vehicles, forest service vehicles, bicyclists and shuttle buses exclusively at weekends. I do not believe that personal vehicles should be allowed, unless they are for disabled members of the public with specific access needs.

Thanks

Jake
