Comments: I just wanted to post on here to say I 100 percent support this idea. This is a great step to properly managing our forest and watershed. A lot of this area is just waiting for a larger fire to destroy this forest. Which in return destroys landscape from heavy erosion leading to pollution into our water ways. We need to do more project like this and expand our logging operations of federal forest lands. Let's put all this road work through the region 1 road and bridge MATOC
