Comments: I am incredibly excited for this project and the access it creates for trail users in our area, both visitors and locals. I hope this is a success so we can use it as a platform to jump into other potential trail projects.

One problem I have noticed in the last few years is congestion at trailheads. This is due to a higher volume of visitors using our public resources. My hope is that projects like this one will alleviate congestion and spread the crowds out so we have less impact everywhere by dispersing our traffic.
