Comments: I strongly support the SHARP project as it supports sustainable recreation of non-motorized trails for a variety of user groups. More legal, sustainable trail options are needed in the area and it should be noted that any improvements can actually be maintained in perpetuity through partnerships and stewardship as the Town of Mammoth excels at engaging the local community. The re-naturalization of user-created trails, reconstruction of user created trails, and new trail construction are all part of creating a safer, more user friendly sustainable trail network that can be enjoyed for years to come. Good luck with the next phase and I look forward to the final product and bringing my family to the area more frequently.
