Comments: Allowing another resort to grab foothold in this region would be a grievous mistake. The proposed operation would impact local wildlife, endangered wildlife, encroach on drinking water and overwhelm a sewage system that is already malfunctioning and has not been addressed nor corrected by the last operating entity.

There is no sustainable way to justify this type of use. There is no housing infrastructure anywhere as the vicinity to support this operation. Our public lands are for the good of all, not a playground for the ultra wealthy.
