Title:

Comments: I am concerned about waste treatment plan. Last year the campground had porta potties. Is the lodge going to have the same since the septic system is faulty. Keeping Holland Lake pristine should be the priority. Remember the state motto " Last best Place". It is up to you to do that for Montanans

A request for a 20 year permit is not acceptable. It is a permit that should be renewed yearly like all the other permits businesses apply for to run their business.

What happened to the original requests? I can see them getting a 20 year permit and then continuing to request the improvements they originally wanted.

Please take care of us and do what is right. Please do not be swayed by favors or prestige.

Thank you for your time
