Title:

Comments: Please keep Targhee unique as it is. Do not make it into another Jackson Hole or Vail resort property. Traffic is already clogging the area, and future expansion will only make it worse. To say study shows no major impact going forward on traffic or resources is absurd. Have you seen Jackson to the Village on a powder day? Bumper to bumper like Manhattan. The pleasure of skiing Targhee is no crowds to speak of. Not worried about getting plowed over by skiers/riders on more crowded slopes.

Resort improvements like restaurants mid and top mountain would be welcomed along with replacement of older slow lifts. Skiable terrain area is great. Leave it as is, and upgrade facilities.

Thank you.
