Comments: I love Targhee and have raised my children on the mountain over the past 20 years. It's there that I truly came to appreciate untouched nature-something that has become one of my highest values.

Targhee is unique in that you can take in a 360-degree view while skiing and not see another structure beyond a lift. That kind of unspoiled beauty is rare and precious.

I appreciate the thoughtful suggestions regarding terrain and lift access expansion; however, I'd hate to see this natural treasure compromised for the sake of a hamburger.

Please consider keeping all new buildings at the base to preserve the wild, untouched spirit that makes Targhee so special.
