Title:

Comments: I read the proposals to add three new lifts and on-mountain restaurants at Grand Targhee.

I wholeheartedly oppose to those projects.

Those projects would harm the down home feel of the place, make it less welcoming for Idaho and Wyoming families.

You don't have to make it another Vail or Jackson.

More people means more damage to the environment and the life of the local population. It's already booming. The proposed would destroy the local flavor.

Enough already.
