Comments: My family has been traveling to Grand Targhee since 1995 and the trip was not always easy. But my kids learned to ski in a low vibe, Western atmosphere and we still go every year. How can they forget PB4UGO? I understand why developing Grand Targhee is attractive to many. But look at the experience elsewhere and the consequences are obvious.

The projects should not go forward until the problem of vehicular traffic is thoroughly solved. Transit and carpools won't help materially. Look at Alta and Snowbird. As the EIS described, Ski Hill as it is will turn into a true New Jersey Turnpike rush hour experience. And do you really want 4 lanes up?

I also agree with others that the base area of the resort should remain as basic as possible. If private homes are to be built, keep them out of site. Do you want another Vail?

I am sad to see things develop in this manner, but we will visit until things become too much for us. If we wanted Jackson Hole we would ski Jackson Hole.
