Comments: All this new terrain will bring more people, the obvious goal of GT. It seems that no additional on mountain lodging has been added to handle the additional ski day load. All of that equals more traffic up and down Ski Hill Road. The traffic as is can be quite horrendous. All of this additional traffic will only further impact the local residents and increase the driving danger on our famous pow day morning drive up!

I've been a season pass holder for many years and have enjoyed the small mountain experience that Targhee has always offered. I really would prefer not to exchange it for the traffic jam and rapidly chewed up powder of Snow Bird, Utah.

Bigger is not necessarily better, something to think about.
