Title:

Comments: I have skied at Targhee since the 1990. We love the small intimate nature and the great train and snow. We are fully supportive of the growth to enlarge the facility, particularly more dining options and slopeside lodging. We really would appreciate getting detachable quads for the beginning skiers as our grandkids are skiing now And the Blackfoot lift is almost impossible to load unload. Even the Shisha is difficult for beginning snowboarders. There also needs to be a better connection to the base from Coulterlift. we really appreciate the paid parking and utilize that almost every time we come to the Mountain. I think it would be a good idea to return to having a doctor patrol and having MD's available to assist the excellent ski patrol program.
