First name: Craig

Last name: Moen

Organization:

Title:

Comments: This plan only addresses the goal of adding more profit to the resort. It does not address the huge negative impact on the city of Driggs resources and road congestion. The residents of Driggs have to put up with the commercial gains of Targee at their expense in congestion and pollution. A few will profit. The grand majority of residents will only suffer. Growth = Death of our town. You offer no proofs otherwise.
