Title:

Comments: I would like to comment about the Rochford mineral exploratory drilling project. I would like to ask for a 60 day extension to the scoping public comment period to give everyone time to comment. I would like the Forest Service to complete an EIS for this project. This project seems to be very close to sacred Lakota ceremonial sites. There has been too much damage already to both the Lakota and their sacred lands. I would like to not have any drilling in the Black Hills. This site in particular needs special attention.

Thank you

Liz and Harvey Fayer
