First name: Henry and Joyce
Last name: Whitney
Organization:
Title:
Comments: Project #67838 Rochford Mineral Exploratory Drilling Project: I and my family are concerned about this project because it could both disrupt a sacred native american site and, potentially, harm the ecosystem in the area. We believe you should offer a 60-day extension to allow all interested parties time to comment. May 9 is too short a deadline. We also believe an EIS should be required for this project.

Thank You,

Henry and Joyce Whitney
