Comments: I support this special use permit to allow the proposed project on this property. Holland Lake is a special place and should be accessible for use by everyone, not just those who live in the vicinity but do not actually use the lodge and want to keep things the way they were. I am over 80 and appreciate the comfort of a modern room and fine dining while enjoying the out of doors, such as provided in many national parks. It was clear at my last stay that upgrades are needed in the present facility, including major expenditures on infrastructure. That requires sufficient income for a return on the investment. It is fortunate that there is a responsible developer willing to take on this project despite major regulatory hurdles and inflammatory public opinion from some loud voices. My quiet voice says that if this opportunity is lost, Holland Lake may stay the way it was, but the benefit of a lodge for many users will be gone forever.
