Comments: To whom it may concern,

I write in opposition to the Rochford Mineral Exploratory Project, the latest in a long line of attacks on Indigenous sovereignty that coincide with continued degradation of the land and the water in the name of profit. I urge you to grant a 60-day extension to the public comment period and require an Environmental Impact Statement to evaluate the extent to which this project will harm the land, surface water, groundwater, air, and biological communities within the proposed project area.
