Title:

Comments: We have our beautiful cabin on Seven Hills Rd. You will be destroying the beauty that surrounds our cabin. We have worked so hard to buy such a beautiful piece of property that you want to just destroy. We walk, hike, jeep, hunt, ride side by sides when we are out there. The cows roam the national forest. You will be destroying and putting wildlife in danger and those that use the national forest. You should not be able to go in and just take away every reason we bought this place. This is our retirement and the future of our next generation. This is our heart and soul. We will do everything, we can, to save the hills that surround our property. We will not go down without a fight.
