Comments: Before bringing more people into the area, the bathroom situation absolutely needs to be addressed. As a cabin owner, it's becoming increasingly difficult to deal with the current conditions.

Additionally, the trash has noticeably worsened since the area opened, and the graffiti is starting to become a serious problem again. We're already spending time and effort cleaning it up, and it's getting frustrating.

There really needs to be a regular ranger presence, along with personnel who can issue citations to cars on site. Without this kind of enforcement, things are only going to get worse.

Please take these concerns seriously - we want to keep this area enjoyable and sustainable for everyone.
