Comments: Hi Forest Service,

I'd love to see more trails developed in the Sherwin area, particularly connecting the Mammoth Rock Trail and Sherwin/Valentine.

As a runner, hiker, and dog owner, this area is perfect for safe activities during the shoulder and summer seasons. However, as summer approaches, Sherwin Creek Road becomes extremely busy with a mix of pedestrians, mountain bikers, and motorized vehicles (e-bikes, dirt bikes, RVs, and cars), creating significant congestion and more attentiveness to safety.

This area also offers a great opportunity to expand and create more beginner-friendly trails for kids and novice hikers/runners. While the Lakes Basin has beautiful trails, they often take longer to melt out and are very busy during the summer months.

Thank you for considering these suggestions!
