Comments: I am writing to request access for e-mountain bikes on the future trails in this Frisco Backyard project.

We have spent the last 20 summers staying in Frisco and cycling in Summit County. I supported trail building with FDRD with donations for equipment and materials.

Now I am 80 years old and can no longer ride as when I was younger, and must use an ebike to enjoy my hobby/sport of the past 50 years.

The Frisco peninsula trails are open to e-mountain bikers, and this project is adjacent to the peninsula, I would appreciate the opportunity to extend my rides in my future summers in Frisco.

Thank you,

Spencer Seery
