Comments: Holland Lake is such a pristine and precious gem in Montana. I hope the forest service understands the importance of protecting this place:for all the people of Montana, not just the wealthy. Please protect the animals. Protect the quiet. I'm concerned that the public is not allowed to see the business plan. I'm concerned that the wastewater treatment facility isn't functioning correctly. I'm concerned that there does not seem to be an environmental assessment planned. So many natural resources in this world are being ruined by humans. Please please protect this place and keep it accessible for working class people. Last, while the forest service is looking at Holland Lake, I would suggest banning all boats and jet skis going over 5 miles an hour or producing any loud noise to protect the fish, the water, the wildlife. Thank you.
