Comments: As the neighboring campground concessionaire to Holland Lake Lodge, we support the project 100%. We look forward to partnering with the new owners- sharing resources and providing extra services for our campers (ie- ability to use the restaurant, grab a coffee, etc). We feel the scope and proposed plan will only add to the recreational experience of the beautiful area. As partners with the Forest Service, we strive to always go above and beyond for our campers and we know we will build a relationship/partnership with the new owners of the Holland Lake Lodge also. It would be a win-win on all sides!
