Title:

Comments: I am 84 years old and my lung capacity is such that I could not mountain bike if I could not use an e-bike. I bike often ride what used to be called Hochi Min trail. I look forward to biking other trails around Ophir Mountain when they are created. I belong to the senior group of mountain bikers and also enjoy helping to maintain trails. In the winter I skin up and ski down both East and North sides of Ophir Mountain about twice a week. I appreciate the fact that they clear cut and thinned areas so I can ski. Because of my age it takes me about one and a half hour to skin up Ophir.
