Comments: While I did think the POWDR proposal to drastically change the lodge and add more cabins, etc. was too much, I do think that there definitely needs to be major upgrades done to the lodge itself. Just look at how well the Izaak Walton Inn's renovation looks now. It is impressive, but they kept the footprint of the building the same and did some much needed improvements to the Inn itself. This kind of thing is what is needed now for Holland Lake Lodge. I would prefer to have a new owner come in with enough financial means to do what needs to be done to do a proper and great renovation so the building can last another 50 years. It desperately needs work and for a new owner to not have that as a priority is unfortunate. The only thing it appears that this new owner is going to do is update the water and sewer system which has to be done. Yet, that is not near enough. The building desperately needs major work.
