Comments: To whom it concerns, As a long time resident in this area where an expanded parking lot is being proposed I have concerns and oppose the parking area being built anywhere on miners creek trailhead or in this area. Traffic is already dangerous in this area, cars come down so fast it's only a matter of time before something happens to a person, child or animal. The parking lots have not had over crowding issues since COVID that I have observed. Maybe its full 10 days out of the year on a Saturday. This does not seem like a good reason to pave and build more spots. It seems to me a better overflow parking lot would be near the hospital where paved parking is already available and is always empty. The area you should be looking at more then miners creek trailhead is Zaks stop. This is the lot that should be paved that and made bigger. That is the lot that is always full!
